

FORWARD MOVING FRIESIANS

...Friesians selected and bred for their forward motion and suitability for dressage. By combining this movement with the breed's gentle temperament and intelligent trainability, a high-performance dressage mount is born. Add the demonstrated consistency of Friesians to pass such traits to their foals and your investment pays off.

THE GENTLEMEN OF PROUD MEADOWS
Proud Meadows offers Jorrit, the only horse to ever earn a perfect score of 10 in the KUR all-breed competition at Equitana Europe. This twelve-year old stallion is the quintessential forward-moving type of Friesian that has gained acclaim among knowledgeable dressage enthusiasts in Europe... and now in the USA.

An Approved Stallion, registered by the Friesenpferde Zuchtverband e.V., he is by Mark P 232 out of dam Hendrina S 6648. His recent demonstration at the National Horse Show in New York City has gained him many new admirers.

Doktor, a 4-year old stallion by Tjimme 275 out of Tara L. S 56747 is offered for your breeding consideration. Though young, he is exhibiting strong forward movement and a natural affinity for high-level dressage.

Other Services offered:

- **Breeding- Semen transported worldwide**
- **Foundation Training in the German regimen**
- **Sales of Proud Meadows-bred Friesians**
- **Imports of Friesians and German Warmbloods**
