Two Crowns, One Horse

2001 USDF Champion
PRIX ST. GEORGES

2001 USDF Champion
FOURTH LEVEL

Congratulations to Tinus in 2001 for his third consecutive year of being selected USDF Horse of the Year Champion, this time at two levels

This double championship follows his Champion honors at Third Level in 2000 and Second Level in 1999.

Tinus is trained and ridden by Sabine Schut-Kery.

Breed with a Champion

If you want a winner to sire your future dressage mount, look for a consistent winner. Tinus is an Approved Friesian breeding stallion. You cannot go wrong when you choose the best for your mare. Limited breedings are now available for 2002.

In addition to Tinus, Proud Meadows also has five other stallions for your breeding consideration.

Compete on a Proud Meadows Friesian

Proud Meadows has two trained Friesians for sale. One is at Second Level and one is at Third Level.

Sabine Schut-Kery says:

"I believe both of these stallions have exhibited the potential for high-level movement." Contact Sabine at Proud Meadows for details.
